Main features	• Intelligent image analysis - Human detection • Video PUSH, e-mail personal messaging • Privacy zones	• Intelligent image analysis - Human detection • Video PUSH, e-mail personal messaging • Privacy zones	RS-485 interface	SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles, • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 20 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 12 selected photos with the ability to independently set the similarity threshold for each photo	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles, • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 10 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles, • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 20 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles, • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 10 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo • RS-232 interface	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), intrusion, classification of people and vehicles • Face recognition and search functions • Support for up to 10 face databases, including 10 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo • RS-232 interface	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), intrusion, classification of people and vehicles • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 10 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo • RS-232 interface	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle • Cous Audio/Alarm support. • Intelligent image analysis - crossing the line (tripwire), crossing the line (tripwire), intrusion, classification of people and vehicles, face recognition • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 10 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo • RS-232 interface	Intelligent image analysis	• DVR from the ArcSense series • Intelligent image analysis : intrusion, crossing the line (tripwire), Deep Learning technology • Smart motion detection (with recognizing people and vehicles) • Filtering of false alarms based on the recognition of persons and vehicles • face detection	• DVR from the ArcSense series, • Intelligent image analysis : intrusion, crossing the line (tripwire), Deep Learning technology, Smart motion detection (with recognizing people and vehicles) • Filtering of false alarms based on the recognition of persons and vehicles • face detection	• DVR from the ArcSense series • Intelligent image analysis : intrusion, crossing the line (tripwire), Deep Learning technology • Filtering of false alarms based on the recognition of persons and vehicles • Face analysis: determination of sex, age and ethnicity, recognition of appearance (glasses, facial hair, mask) • Support for up to 10 face databases, including 10 000 face images • In the faces other than face photography, can also be stored such information as: name, sex, date of birth, nationality, address, ID number • Searching of false alarms based on the recognition of persons and vehicles • RS-232 interface	• DVR from the ArcSense series • Intelligent image analysis : intrusion, crossing the line (tripwire), Deep Learning technology • Filtering of false alarms based on the recognition of persons and vehicles • Motion detection with human/vehicle silhouette recognition	• DVR from the ArcSense series • Intelligent image analysis : intrusion, crossing the line (tripwire), Deep Learning technology • Filtering of false alarms based on the recognition of persons and vehicles • Motion detection with human/vehicle silhouette recognition	• Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • Intelligent image analysis - crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	• Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • Intelligent image analysis - crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	Intelligent image analysis - crossing the line (tripwire), intrusion, abandoned/missing object, face detection, Face recognition - 2 Channels • Intelligent Video (Point of Sale) terminals • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) : perimeter protection • Face detection • SMD PLUS - searching for an object classified as: human, motor vehicle - 16 Channels	• RS-232 interface • Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • Intelligent image analysis - crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	• RS-232 interface (RJ-45) • Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • Intelligent image analysis - crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	• Intelligent image analysis - intrusion, crossing the line (tripwire) • SMD PLUS - searching for an object classified as: human, motor vehicle
