## GUARD STATION **DHI-VTS5240B** DAHUA

Net: **787.27 EUR** Gross: **787.27 EUR**

The DHI-VTS5240B main station is a device allowing for consistent management of a large video doorphone installation. This panel allows contact with any internal panel in the system, support for all door stations and control of the opening of individual gates.

The device has been designed for local access control centres for housing estates or other facilities with a similar number of users.

### SPECIFICATION

|                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

Rear view:

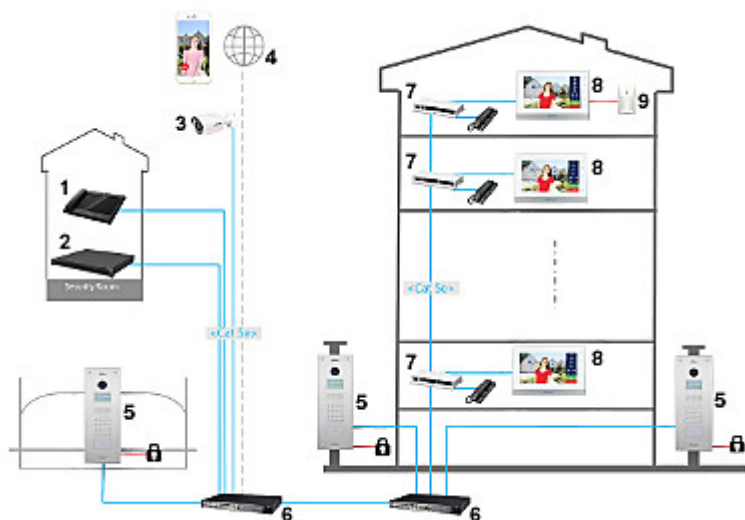

Device connectors:

Example of application:

- 1 - DHI-VTS5240B
  - 2 - SIP server
  - 3 - IP Camera
  - 4 - INTERNET
  - 5 - Door station
  - 6 - Switch
  - 7 - Switch dedicated to the DAHUA IP video intercom systems
  - 8 - Indoor Panel
  - 9 - Motion detector
- In the kit:
