SMART IR TRANSMITTER **SL-IR01** Wi-Fi, Tuya Smart

Net: 10.00 EUR Gross: 10.00 EUR

The SL-IR01 smart infrared transmitter allows you to control most devices controlled by traditional IR remotes (e.g. TV, STB, home cinema, Hi-Fi system, air conditioner) from the Tuya Smart application. The application includes a very wide library of ready-made control schemes for popular devices from various manufacturers. In addition, the transmitter has a remote control copy function, thanks to which you can add your own control schemes in case your device is missing from the manufacturer's database.

In addition to direct control, the device has the ability to program operation schedules and linkage to various system events.

ATTENTION! Device is designed for indoor use only.

Tuya is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth.

Attention! Controlling the device is possible if the device has access to the Internet - control from the Tuya application. Tuya Smart application works perfectly with Google Assistant, Amazon Alexa and many others, which allows you to control connected devices using voice commands.
