

Code: TO-FC/10DB

## ATTENUATOR TO-FC/10DB

Net: 14.30 EUR Gross: 14.30 EUR

Optical attenuator with attenuation of 10dB, FC socket to FC plug (female-to-male).

Attenuator can be used in front of a receiver to diminish optical power, so that it is within receiver's dynamic range.

### SPECIFICATION

|                 |                                                                                                              |
|-----------------|--------------------------------------------------------------------------------------------------------------|
| Connector type: | FC Plug / FC Socket                                                                                          |
| Attenuation:    | 10 dB                                                                                                        |
| Main features:  | can work with both single-mode and multi-mode networks, in every transmission window (850nm, 1310nm, 1550nm) |
| Housing:        | Metal                                                                                                        |
| Guarantee:      | 2 years                                                                                                      |
