

Code: JA-150N

## WIRELESS OUTPUT MODULE **JA-150N** JABLOTRON

Price visible after login

The JA-150N can be used to control any equipment supplied by voltage of 230V AC. The device is equipped with independent, wireless controller mains relay with maximum load of 16 A.

### SPECIFICATION

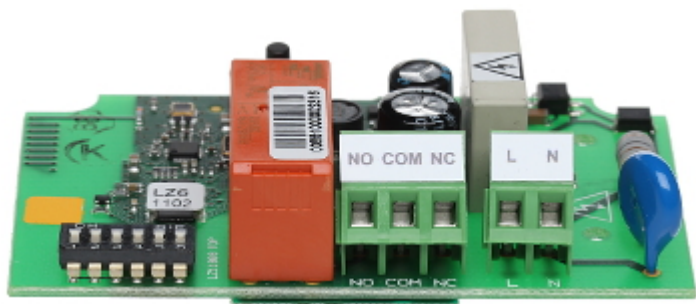

|                                         |                              |
|-----------------------------------------|------------------------------|
| Support:                                | JABLOTRON 100                |
| Frequency band:                         | 868.1 MHz JABLOTRON protocol |
| Relay contacts rating (resistive load): | 16 A / 250 V AC              |
| Power supply:                           | 230 V AC                     |
| Power consumption:                      | ~ 1 W                        |
| Operation temp:                         | -10 ... 40 °C                |
| Weight:                                 | 0.045 kg                     |
| Dimensions:                             | 82 x 51 x 20 mm              |
| Manufacturer / Brand:                   | JABLOTRON                    |
| Guarantee:                              | 2 years                      |
