Net: **513.39 EUR** Gross: **513.39 EUR**

IP camera with efficient H.264 / H.265 image compression algorithm for clear and smooth video streaming at maximal resolution of 4 MPx.

The device is equipped with ePoE technology which enables transmission up to 800 m at a speed of 10 Mb/s or 300 m at a speed of 100 Mb/s via cat. 5e twisted-pair. PoE powering possibility, compatible with the 802.3af standard makes the device more universal and easier to install.

The camera has extensive functions for counting people and controlling their flow. It is used wherever you need information about how many people entered, e.g. a store or office, and how many customers are still inside. It is also possible to control the number of people waiting in the queue to the service point.

Thanks to the "Starlight" technology used, the camera only needs very low lighting to obtain a clear color image.
