

Code: SP-IR04

WIRE REMOTE CONTROL REPEATER **SP-IR04** Spacetronik

Net: **15.59 USD** Gross: **15.59 USD**

Wire repeater of the remote controllers for audio-video components allows to control even several devices, which are located behind closed doors or hidden, for example inside equipment closet.

The IR signal receiver must be fixed in the designated place. IR signal transmitter should be glued in such a way that it covers the "window" for receiving the signal from the remote control on the device.
