## INDUSTRIAL POE SWITCH **PFS3010-8ET-96** 8-PORT DAHUA

Net: **113.52 EUR** Gross: **113.52 EUR**

The PFS3010-8ET-96 PoE Switch is an industrial type device enabling fluent network transmission at rates 10 / 100 Mb/s. The device is perfect to build a network of IP cameras with power supply in the PoE 802.3af / 802.3at standard.

### SPECIFICATION

|                       |                                                                                                                                                                                            |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| LAN ports:            | <ul style="list-style-type: none"><li>• 2 x RJ45 10/100/1000 Base-T - Port Uplink,</li><li>• 1 x RJ45 10/100 Base-T + Hi-PoE</li><li>• 7 x RJ45 10/100 Base-T + PoE (802.3af/at)</li></ul> |
| Management:           | —                                                                                                                                                                                          |
| Operation modes:      | <ul style="list-style-type: none"><li>• Extend On : 250 m, 10 Mbps @ UTP cat. 5e, 6</li><li>• Extend Off : 100 m, 100 Mbps @ UTP cat. 5e, 6</li></ul>                                      |
| Transmission speed:   | <ul style="list-style-type: none"><li>• 10 / 100 Mbps - 8 LAN &amp; PoE ports</li><li>• 10 / 100 / 1000 Mbps - 2 Uplink ports</li></ul>                                                    |
| Maximal output power: | 30 W / port PoE<br>60 W / port Hi-PoE                                                                                                                                                      |
| Maximal total power:  | 96 W                                                                                                                                                                                       |
| MAC addresses table:  | 16k                                                                                                                                                                                        |
| Main features:        | <ul style="list-style-type: none"><li>• Data Flow Control</li><li>• protection against lightning discharges and voltage differences and strokes between devices</li></ul>                  |
| LED diodes:           | Power, Link/Act, PoE                                                                                                                                                                       |
| Power supply:         | 48 ... 57 V DC / 2.0 A (power adapter included)                                                                                                                                            |
| Operation temp:       | -10 °C ... 55 °C                                                                                                                                                                           |
| Weight:               | 0.49 kg                                                                                                                                                                                    |
| Dimensions:           | 190 x 100 x 30 mm                                                                                                                                                                          |
