ACCESS POINT 5.8 GHz **CDS-6IP/ECO** CAMSAT

Net: **152.33 EUR** Gross: **152.33 EUR**

The CDS-6IP/ECO wireless video transmission module for megapixel cameras and IP Full HD / IP 4K recorders. The device is a transmitter and receiver in a single module (transceiver). The encryption using 64/128/152 bit identification code provides the protection against spying.

The device has built-in a dual antenna (MIMO 5GHz 2 x 13 dBi) and allows precise antennas tuning and achieving high-quality transmission at different distances.

Attention! The CAMERA 1 connector **does not allow** the camera to be powered via Passive PoE.
