

Code: JA-152J-MS

BIDIRECTIONAL REMOTE CONTROL KEYFOB **JA-152J-MS** JABLOTRON

Price visible after login

Two-way and two-button remote control keyfob allows remote control of multiple alarm systems. It is designed to remote control of the alarm system panels and other house automatic devices.

Very often and very useful solution is combine the alarm function with automatic system application. Due to bi-directional communication, the LED on the remote controller indicates a state of supported module, or zone.

SPECIFICATION
