## NVR **GT-N11-004** 4 CHANNELS GEMINI TECHNOLOGY

Net: **69.00 EUR** Gross: **69.00 EUR**

The GT-N11-004 digital recorder is a professional device applicable in surveillance systems. The H.264 video compression standard using to record video data, allows to get the best possible quality of recorded image at minimal network transfer and disk storage capacity. The menu options layout has been designed for all users, even beginners can easy navigate and change parameters in DVR settings without any problem.

### SPECIFICATION

|                                     |                                                                                                                                                                                                                                                                                                                                                                                        |

## OUR OPINIONS

- The recorder is full compatible with GEMINI cameras.
- Very small dimensions of the DVR save the required space.
