

Code: RB-524-DIN

## CHANGE-OVER RELAY MODULE **RB-524-DIN** JABLOTRON

Price visible after login

It can be used to increase maximal load of controller transistor output line and for galvanic isolation between output line and load point.

### SPECIFICATION

|                          |                                      |
|--------------------------|--------------------------------------|
| Number of relay outputs: | 1                                    |
| Power supply:            | 5 ... 24 V DC                        |
| Current consumption:     | 40 mA @ 12 V DC                      |
| Relay maximal load:      | 16 A (max), 24 V DC / 250 V AC (max) |
| Output:                  | NO / NC                              |
| Main features:           | DIN, TS-35 rail mounting             |
| Operation temp:          | -10 °C ... 40 °C                     |
| Weight:                  | 0.05 kg                              |
| Dimensions:              | 90 x 18 x 65 mm                      |
| Manufacturer / Brand:    | JABLOTRON                            |
| Guarantee:               | 2 years                              |
