

Code: XB-KINDER

ELECTRONIC BABY MONITOR **XB-KINDER** Xblitz

The XB-KINDER baby monitor is a wireless device operating in 2.4 GHz band. The maximal transmission range is 260 m in the open area, and approx. 50 m in rooms.

The device enables one-way video transmission and bi-directional audio transmission. In addition, the module intended for mounting in a baby's room has 8 built-in lullaby melodies. The playing of the melody is triggered by pressing a dedicated button on the module with the monitor.

The device also allows to monitor the air temperature in the baby's room.
