Code: INT-VG/IT

VOICE MODULE **INT-VG/IT** SATEL

The module allows to remote control of the alarm systems via telephone keypad and voice menu. The device can be used as an 16-message "voice synthesizer" for voice notification on selected system events. The INT-VG/IT enables not only to arm or disarm the system, but also to get detailed information on system status or control appliances attached to the panel.

This device is dedicated for INTEGRA/VERSA alarm control panels.

Main features:	• INTEGRA / VERSA control panels support • Voice menu for easy operation of the alarm control panel with any DTMF telephone • Message recording with the use of "text-to-speech" technology or recording with built-in microphone • Remote arming/disarming, output control for "home automation" devices, system status checking • Possibility to 16 messages recording for voice messaging
