

Code: TF-005

## FILTER LTE **TF-005**

The TF-005 filter is used to suppress LTE signals that may cause interference in terrestrial TV installations.

|                         |                                                                                                                                                                              |
