

Code: ACTIONBOX-S/BLEBOX

SMART ACTION TRIGGER **ACTIONBOX-S/BLEBOX** Wi-Fi, 230 V AC

The ACTIONBOX-S/BLEBOX smart action trigger is used to control other devices compatible with the BleBox µWi-Fi system. The device can be, for example, a central control point for lighting and blinds in the entire building. The controller is equipped with 1 input for physical switch and allows you to program up to 30 different actions.

To work with full functionality, the device requires connection to a home Wi-Fi network. Controlling BleBox devices via the cloud requires additionally connecting the home network to the Internet and enabling the "Remote access" function in the device configuration.

Beyond direct control, the device has the ability to program the on and off schedule and linking to different system events. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).

Attention! Controlling the device with a physical switch is done by shorting / opening the IN contact to the neutral wire. The device can operate with monostable (momentary), bistable and stair switches. Depending on the switches used, the way of invoking the action for each device should be properly configured.

Application:	controlling devices, triggering actions
Rated voltage:	230 V AC
Maximal total load:	—
Total maximal current:	—
Number of inputs:	1
Number of outputs:	0
Connector type:	screw terminals
Wireless:	Wi-Fi, 2.4 GHz - IEEE 802.11g
Mobile phones support:	<ul style="list-style-type: none"> The wBox free application on Android The wBox free application on iOS
Main features:	<ul style="list-style-type: none"> Local control by physical button, schedule, timer, remote access, voice control, µWi-Fi technology support
Housing:	Plastic

DATA SHEET

"Index of Protection":	IP20
Color:	Black
Operation temp:	-20 °C ... 50 °C
Weight:	0.024 kg
Dimensions:	39 x 25 x 23 mm
Manufacturer / Brand:	BleBox
Guarantee:	2 years
