Code: LED-RGB-WC/RF LED LIGHTING CONTROLLER WITH REMOTE CONTROL **LED-RGB-WC/RF** 2.4 GHz, RGB 12 ... 24 V DC MiBOXER / Mi-Light

The LED-RGB-WC/RF lighting controller is designed to control the activation, brightness and color of the three-channel RGB LED strips. The controller is controlled using a wireless remote control operating in the 2.4 GHz band (included).

The MiBOXER controllers allow you to divide the lighting into up to 4 zones and independently control the zones using the remote control. Thanks to the repeater function, if the distance $\leq 30m$ is kept between the controllers, it is possible to transmit the control signal to controllers that are beyond the direct range of the remote control.
