ELECTRIC STRIKE **EL1-005** Biratronik BIRA

The Biratronik electric strikes EL1-series have asymmetric housing and steel, strengthened latch. There is no latch adjustment thank to this the latch is stronger than adjustable latch.

The Biratronik electric strikes are applied to wide range of doors (wooden, metal and PVC), gateways and lockers. They cooperate properly with all other elements of access control systems and therefore they are often used in residential and multi-apartment buildings, offices and commercial buildings.
