

Code: POE-044816

POE POWER ADAPTER **POE-044816**

The POE-044816 is designed to powering devices using PoE technology. This technology allows to run the system with only one UTP/FTP cable which transmits data and provides supplying voltage. Please pay attention for proper cooling conditions of the power adaptor during work!
Attention! The power cord is not included (230V AC).

Adapter type:	Switching
Number of inputs:	4 x RJ-45 socket
Number of outputs:	4 x RJ-45 socket
Output voltage:	42 V ... 54 V DC
Input voltage:	88 V ... 264 V AC
Maximal output current:	4 x 0.4 A
Outputs protection:	4 x 0.5 A Glass Fuse / PTC Polymer Fuse
Protections:	Overload Overvoltage Overvoltage Short-circuit Tamper
Main features:	- FPS output - indicating power supply unit operation state: normal or failure - Supported data rates : 10 / 100 Mbps
LED indicators:	- AC input voltage presence indication - DC output voltage presence indication (AUX) - Connecting to the device - Fuse has gone indication
Weight:	2.96 kg
Dimensions:	236 x 286 x 118 mm

DATA SHEET

Manufacturer / Brand:	PULSAR
Guarantee:	2 years
