

Code: MTV-40

MODULATOR TV **MTV-40**

Modulator is designed to use in professional installations of TV and CCTV signals distribution. It has the adjustment of AUDIO and VIDEO input level and RF output signal level (maks. 80 dBuV). Power supply of the modulator can be made in two ways: external, local power adapter connected to the DC outlet, remote supplying from the line via RF output. From DC outlet you can power the camera.

Inputs:	1 pcs Video composite (Cinch) 1 pcs RF (F) 1 pcs audio (Cinch)
Output:	1 pcs RF (F)
RF output channels range:	1 ... 69
Video input level / impedance:	75 Ω
Audio input level adjustment:	✓
Audio input level / impedance / deviation:	13 $\pm$ 3 k Ω
Level (typical) / RF output impedance:	70 ... 80 dB μ V / 75 Ω
Audio subcarrier frequency:	5.5 / 6.5 MHz
Power supply:	9 ... 12 V DC / 150 mA
Manufacturer / Brand:	MEZON
Guarantee:	2 years
