

# User Manual

Code: XB-NAVIIGPS  
VEHICLE CAMERA **XB-NAVIIGPS** Xblitz

## Warning!

Please read the user manual included in this work as it contains important information related with safety of installation and use of the device.

Only persons who read the user manual may use the device.

The user manual must be kept because it may be required in the future. The device is to be used exclusively for purposes specified in this user manual.

The device must be unpacked prior to starting-up. After removing the packaging make sure the device is in working order. If the product has defects, it should not be used until it is repaired.

The product is intended for use at home and commercial use and may not be used for other than intended use.

The manufacturer is not liable for damages resulting from not adhering to the rules contained in the user manual, therefore, we recommend to follow the aforementioned safety rules for operation and maintenance of the device. In this way you will ensure yourself safety and avoid causing damage to the device.

The manufacturer and the supplier are not liable for losses or damages arising out of the product, including financial or intangible losses, loss of profits, income, data, pleasure from use of the product or other products related with it - indirect, incidental or consequential loss or damage. The above provisions apply whether the loss or damage concerns:

1. Deterioration of quality or the lack of operation of the products or products related with it due to damage as well as the lack of access to the product when it is undergoing repair, which results in stoppage the loss of user's time or a break in business activity;
2. Improper results of operation of the product or products related with it;
3. It applies to losses and damages according to any legal category, including negligence and other losses, termination of a contract, expressed or implied guarantee and strict liability (even if the manufacturer or the supplier was notified about the possibility of occurrence of such damages).

### Safety measures:

Particular attention at designing was directed to quality standards of the device where ensuring safety of operation is the most important factor.

The device must be secured against contact with caustic, staining and viscous fluids.

The device was designed in such a way that it restarts operation when power supply is restored after a break.

**Attention! We recommend using protections to further protect the device from possible overvoltages in installations. Surge protectors are effective protection against accidental pass to the device voltages higher than the rated. Damages caused by pass the voltages higher than specified in manual, are not under warranty.**

Turn off the device before transporting it.

Prior to connecting the device to a power source check whether the supplied voltage is consistent with rated voltage specified in the user manual.

### Proper product disposal:

A marking of a crossed out waste bin indicates that the product may not be disposed together with other household waste in the entire EU. To avoid possible damage to the natural environment of health due to uncontrolled waste disposal, therefore, it should be handed over for recycling, propagating in this way sustainable use of natural resources.

To return a worn-out product, use a collection and disposal system of this type of equipment or contact a seller from whom it was purchased. He will then be recycled in an environmentally-friendly way.

The XB-NAVIIGPS recorder is the mobile device designed to indoor using, which allows to recording the video sequences e.g. from moving car. With this recording you can greatly facilitate any investigation of guilt for various traffic incidents, as well as registered attempts to break or damage the vehicle in the parking lot.

Built-in GPS allows to approximate indication of vehicle position and speed. Installation of the unit is very simple, and the positioning of the camera does not cause any problems.

The recording is automatically divided into sections with a length of 3, 5, 10 minutes. Currently recording section is protected against overwriting when it detects impact or hard braking by G-Sensor, or using the corresponding button. Memory card not included in the kit.

Sensor:	1/3 " AR0330 CMOS
View angle:	140 °
Display:	2 " TFT LCD
Speaker:	✓
Microphone:	✓
LED illuminator:	—
Memory:	External: microSD cards socket (card is not included)
Max. capacity of memory card:	64 GB
Compression:	H.264 (MOV file format)
Resolution of recording video files:	1920 x 1080 - 1080p @ 30 fps , 1280 x 720 - 720p @ 30 fps 848 x 480 @ 30 fps 640 x 480 @ 30 fps
Recorded frames resolution:	4032 x 3024 (JPG file format)
Operation modes:	<ul style="list-style-type: none"> <li>• Auto recording after power on</li> <li>• Manual recording</li> <li>• Photo camera</li> <li>• PC camera</li> </ul>
Memory storage for video recording:	~ 90 MB/min (at Full HD and 30 fps)

Main features:	<ul style="list-style-type: none"> <li>• Built-in GPS allows to approximate indication of vehicle position and speed,</li> <li>• WDR - Wide Dynamic Range,</li> <li>• G-Sensor - impact and hard braking sensor</li> <li>• Protection of currently recording section against overwriting - automatically after triggering by G-Sensor / manual</li> <li>• Motion Detection</li> <li>• Warning about driver fatigue</li> <li>• Lights on alarm</li> <li>• Parking monitoring mode - stand-by mode camera starts recording after impact detection</li> <li>• Easy and universal mounting system</li> </ul>
Power supply:	<ul style="list-style-type: none"> <li>• From built-in battery - 400 mAh Li-Pol</li> <li>• From car power adapter (included) - 5 V DC micro USB</li> </ul>
Estimated battery operation time:	The battery is only used to hold the clock and memory settings
Interfaces:	mini HDMI
Dimensions:	53 x 58 x 32 mm (without bracket)
Weight:	0.076 kg
Supported languages:	English, Chinese, French, Spanish, German, Polish, Portuguese, Russian, Italian
Manufacturer / Brand:	Xblitz
Guarantee:	2 years
