Safety measures:

Particular attention at designing was directed to quality standards of the device where ensuring safety of operation is the most important factor.

The device must be secured against contact with caustic, staining and viscous fluids.

The flashlight is equipped with the Ultimate Light Control system with Digital Focus technology enabling one-press transitions from full spot light to full flood light and activation of the stroboscopic mode. The MAXVIZ technology and the newest LEDs give powerful light, long runtime and enable the visibility of illuminated items in natural daylight colours.

There are 2 modes of light power available: maximum (high) and economical (low). Flashlight body is made of durable aluminum alloy which ensures long-term use and usefulness for each task.
