

# User Manual

Code: SL-IR01  
SMART IR TRANSMITTER **SL-IR01** Wi-Fi, Tuya Smart

## Warning!

Please read the user manual included in this work as it contains important information related with safety of installation and use of the device.

Only persons who read the user manual may use the device.

The user manual must be kept because it may be required in the future. The device is to be used exclusively for purposes specified in this user manual.

The device must be unpacked prior to starting-up. After removing the packaging make sure the device is in working order.

If the product has defects, it should not be used until it is repaired.

The product is intended for use at home and commercial use and may not be used for other than intended use.

The manufacturer is not liable for damages resulting from not adhering to the rules contained in the user manual, therefore, we recommend to follow the aforementioned safety rules for operation and maintenance of the device. In this way you will ensure yourself safety and avoid causing damage to the device.

The manufacturer and the supplier are not liable for losses or damages arising out of the product, including financial or intangible losses, loss of profits, income, data, pleasure from use of the product or other products related with it - indirect, incidental or consequential loss or damage. The above provisions apply whether the loss or damage concerns:

1. Deterioration of quality or the lack of operation of the products or products related with it due to damage as well as the lack of access to the product when it is undergoing repair, which results in stoppage the loss of user's time or a break in business activity;
2. Improper results of operation of the product or products related with it;
3. It applies to losses and damages according to any legal category, including negligence and other losses, termination of a contract, expressed or implied guarantee and strict liability (even if the manufacturer or the supplier was notified about the possibility of occurrence of such damages).

### Safety measures:

Particular attention at designing was directed to quality standards of the device where ensuring safety of operation is the most important factor.

The device must be secured against contact with caustic, staining and viscous fluids.

The device was designed in such a way that it restarts operation when power supply is restored after a break.

**Attention! We recommend using protections to further protect the device from possible overvoltages in installations. Surge protectors are effective protection against accidental pass to the device voltages higher than the rated. Damages caused by pass the voltages higher than specified in manual, are not under warranty.**

Turn off the device before transporting it.

Prior to connecting the device to a power source check whether the supplied voltage is consistent with rated voltage specified in the user manual.

### Proper product disposal:

A marking of a crossed out waste bin indicates that the product may not be disposed together with other household waste in the entire EU. To avoid possible damage to the natural environment of health due to uncontrolled waste disposal, therefore, it should be handed over for recycling, propagating in this way sustainable use of natural resources.

To return a worn-out product, use a collection and disposal system of this type of equipment or contact a seller from whom it was purchased. He will then be recycled in an environmentally-friendly way.

The SL-IR01 smart infrared transmitter allows you to control most devices controlled by traditional IR remotes (e.g. TV, STB, home cinema, Hi-Fi system, air conditioner) from the Tuya Smart application. The application includes a very wide library of ready-made control schemes for popular devices from various manufacturers. In addition, the transmitter has a remote control copy function, thanks to which you can add your own control schemes in case your device is missing from the manufacturer's database.

In addition to direct control, the device has the ability to program operation schedules and linkage to various system events.

**ATTENTION!** Device is designed for indoor use only.

Tuya is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth.

**Attention!** Controlling the device is possible if the device has access to the Internet - control from the Tuya application. Tuya Smart application works perfectly with Google Assistant, Amazon Alexa and many others, which allows you to control connected devices using voice commands.

Network interface:	Wi-Fi - IEEE 802.11 b/g/n
Mobile phones support:	It is possible to operate via the Wi-Fi network from the mobile application on the iOS, Android systems : <ul style="list-style-type: none"> <li>The <a href="#">Tuya Smart</a> free application on Android</li> <li>The <a href="#">Tuya Smart</a> free application on iOS</li> </ul>
Main features:	<ul style="list-style-type: none"> <li>A large database of predefined device control schemes,</li> <li>Possibility to copy the control scheme from the remote control, which is missing in the base,</li> <li>IR carrier frequency : 38 kHz</li> </ul>
Power supply:	5 V DC - Port USB
Current consumption:	max. 1000 mA
Material:	Plastic : PC + ABS
Color:	Black
Operation temp:	-10 °C ... 45 °C
Permissible relative humidity:	≤ 90 % (non-condensing)
Weight:	0.07 kg
Dimensions:	60 x 60 x 31 mm
Manufacturer / Brand:	Spacetronek
Guarantee:	2 years
