

Warning!

Please read the user manual included in this work as it contains important information related with safety of installation and use of the device.

Only persons who read the user manual may use the device.

The user manual must be kept because it may be required in the future. The device is to be used exclusively for purposes specified in this user manual.

The device must be unpacked prior to starting-up. After removing the packaging make sure the device is in working order. If the product has defects, it should not be used until it is repaired.

The product is intended for use at home and commercial use and may not be used for other than intended use.

The manufacturer is not liable for damages resulting from not adhering to the rules contained in the user manual, therefore, we recommend to follow the aforementioned safety rules for operation and maintenance of the device. In this way you will ensure yourself safety and avoid causing damage to the device.

The manufacturer and the supplier are not liable for losses or damages arising out of the product, including financial or intangible losses, loss of profits, income, data, pleasure from use of the product or other products related with it - indirect, incidental or consequential loss or damage. The above provisions apply whether the loss or damage concerns:

1. Deterioration of quality or the lack of operation of the products or products related with it due to damage as well as the lack of access to the product when it is undergoing repair, which results in stoppage the loss of user's time or a break in business activity;
2. Improper results of operation of the product or products related with it;
3. It applies to losses and damages according to any legal category, including negligence and other losses, termination of a contract, expressed or implied guarantee and strict liability (even if the manufacturer or the supplier was notified about the possibility of occurrence of such damages).

Safety measures:

Particular attention at designing was directed to quality standards of the device where ensuring safety of operation is the most important factor.

The device must be secured against contact with caustic, staining and viscous fluids.

The Gerda SLR series cylinder is dedicated to the installation of a smart door lock operated by the Tedee application.

The modular structure allows for a very intuitive and easy adjustment of the cylinder to any door size. Length adjustment ensures fit to any European type lock. The profile cylinder is characterized by a new, solid construction, which provides excellent protection against drilling. The lock can always be opened from the outside using one of the three traditional keys included in the set.

Tedee application works perfectly with Google Assistant, Amazon Alexa, Apple Siri and many others, which allows you to control connected devices using voice commands. It provides features such as remote operation, notifications, activity log, auto-open.

The cylinder set includes three standard keys, a code card and all the elements needed to correctly assemble the cylinder.

Attention! The key profile is reserved in the patent office and it is possible to copy it only through the [gerda.pl/en/](https://www.gerda.pl/en/) website.

Application:	TEDEE-PRO
Compatible lock type:	European
Dimension A (inside part):	30 ... 61 mm
Dimension B (outside part):	30 mm
Spacers:	6 mm, 10 mm, 15 mm
Main features:	<ul style="list-style-type: none"> • Modular construction • Adjustable cylinder length • Anti-drilling protection design • In the kit : 3 keys, code card • A type - Cam • Class of protection 6 acc. to PN-EN 1303:2015-07
Manufacturer / Brand:	GERDA / Tedee
Guarantee:	2 years

Modular cylinder:

A - Inside part
B - Outside part
In the kit:
