DATA SHEET

Code: MPT-350

REMOTE CONTROL **MPT-350** SATEL

Universal keyfob designed for control of the alarm systems based on SATEL PERFECTA WRL control panels. In addition to arming and disarming the system, the keyfob provides other functions as well. For example, it can call for help (panic alarm) or control equipment connected to the PERFECTA WRL system, like garage door, and so on.

Its additional advantage is the option to individually configure each button, so that its operation can better suit your needs.

Support:	• PERFECTA, • MICRA - firmware version 3.03 or later, • INT-RX-S - firmware version 1.04 or later, • VERSA-MCU - firmware version 1.04 or later, • MTX-300 - firmware version 1.01 or later
Frequency band:	433.05 MHz ... 434.79 MHz
Radio communication range (at open area):	to 400 m
Battery:	CR2032 3V (included)
Environmental class EN 50130-5:	II
Operation temp:	-10 °C ... 55 °C
Permissible relative humidity:	93 ± 3 %
Main features:	• LED indication • five buttons whose operation can be individually defined in the system, allowing the keyfob functionality to be customized to the needs and habits of the user • detection and signaling of low power of the keyfob battery • attached snap hook-type handle for easy ordering of keys
Dimensions:	38 x 78 x 16 mm
Weight:	0.03 kg
Manufacturer / Brand:	SATEL
Guarantee:	2 years
