

Code: G-24

## GUARD STATION **G-24** VIDOS

The guard station is designed to work in residential installations or multi-block buildings in the VIDOS DUO system. The unit enables direct connections between the porter's lodge and tenants. The product has the ability to view image from all cameras in gate stations and from additional cctv cameras and to record the image.

The internal panels from the VIDOS DUO series have an icon in the menu to direct connection with the station.

**Attention!** The device works with all VIDOS DUO gate stations.
