

Code: U1011

UNIPHONE **U1011** VIDOS

The U1011 speakerphone uniphone is designed to work with a two-wire digital VIDOS DUO system. The device is dedicated to single-family and multi-subscribers systems. The uniphone can be used as an independent communication point or as part of a video doorphone system expansion in a single premise where monitors are connected. Intercom function allows internal communication between devices in one premises. All monitors and uniphones are compatible with each other and can be freely combined in the system.
