## WIRELESS DUAL TECHNOLOGY MICROWAVE + PIR DETECTOR **KX10DTP2-WE** PYRONIX

Wireless motion detector, which is designed to detect the moving intruder within the system protected area. With a combination of PIR and MW detection was reached high immunity to false alarms. It is perfect to create surveillance system in small-size buildings, such as e.g.: kiosks, summer houses, boutiques, freestanding garages and workshops, and wherever conducting wire installation is difficult or impossible to perform.

The KX10DTP2-WE supports the other devices compatible with wireless Pyronix system.
