

Code: APT-200

## REMOTE CONTROL **APT-200** ABAX/ABAX2 SATEL

Universal remote controller to control the operation of ABAX/ABAX2 systems. In addition to arming and disarming the system, the keyfob provides other functions as well. For example, it can call for help (panic alarm) or control equipment connected to the system, like garage door, and so on.

Its additional advantage is the option to individually configure each button, so that its operation can better suit your needs.
