

## DATA SHEET

## Code: LR-1500 LASER RANGEFINDER LR-1500 UNI-T

The LR-1500 device is a laser distance meter equipped with a magnifying eyepiece with a crosshair indicator with a range up to 1350 m.

The LR series are compact portable devices that are used to measure longer distances to the object. The product is ideal e.g. for engineering works over a larger area, etc.

The working range and accuracy given by the manufacturer depends on the environmental conditions (air transparency, weather conditions, sunlight, obstacles, brightness and size of the object). The device is powered by a built-in battery.
