USB VIDEO CONFERENCE CAMERA **A30T** - 1080p UNIARCH

The A30T conference camera is a combination of a camera, microphones array and a loudspeaker into one device. The A30T camera with a resolution of 2.1 Mpx and wide view angle is ideal for conducting video conferences in small-to-medium-sized teams. The built-in 4-element omni-directional microphones array, customized, human-voice-optimized wide-band speaker, enable full-duplex two-way communication within 5 meters distance with the real feeling of stable sound.

The device is equipped with a USB 2.0 connector and works according to the Plug and Play standard. The device is compatible with IoT (Internet of Things) technology. This ensures compatibility with leading online conferencing platforms. It is an excellent choice for conference rooms hosting 1 to 8 people.
