SURFACE-MOUNTED TELECOMMUNICATION BOX **TESM-4/N**

The TESM-4/N Surface-Mounted Box is designed for installation in every apartment in a multi-family building, the design of which complies with applicable regulations. The cabinet converges telecommunication cables from the technical room and teletechnical sockets installed in the apartment.

The front door has ventilation holes that also act as slots for Wi-Fi signals.

The TESM-4/N cabinet is equipped with a connection chamber (so-called patch chamber) for telecommunication cables: optical fibers, twisted pair and coaxial cables. It allows you to organize cables connected to the apartment and connect devices such as cable TV modems, routers, RTV amplifiers, multiswitches with optical inputs, splitters, etc. These devices can be quickly and easily mounted on a prefabricated rear wall with holes for threading cable ties or Velcro straps.

Application:	<ul style="list-style-type: none"> • R-TV SAT • WLAN
