

Code: ATLO-GDC2-TUYA

SMART GARAGE DOOR CONTROLLER **ATLO-GDC2-TUYA** Wi-Fi, Tuya Smart

The ATLO-GDC2-TUYA controller allows you to open or close the garage door and confirm its status. For proper functioning of the device, it is necessary to connect it to the Wi-Fi network with Internet access.

In addition to direct control, the device has the ability to program operation schedules and linkage to various system events. It is possible to create action scenarios with other devices. The reed switch included in the set allows to confirm the status of the garage door. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).

Tuya is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth.

Attention! Controlling the device and schedule settings is possible if the device has access to the Internet.
