SMART MULTICOLOR LIGHT BULB **CL1B-5-E27** Wi-Fi IMOU

The CL1B-5-E27 multicolor smart light bulb allows you to adjust the brightness and color of the lighting to the situation and time of day, to create the perfect atmosphere in your home at anytime. For the proper management of the device, it is necessary to install the Imou Life mobile application. Remote access to the device requires connection to a Wi-Fi network with Internet access and is implemented with the use of the IMOU cloud.

Beyond direct control, the device has the ability to program the on and off schedule and different operating scenarios, and also in the "Away Mode" it can simulate the presence of household members by turning on and off connected devices at different times. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).
