POWER GENERATOR **DY-950** 650 W Dynamo

A power generator with manual start is ideal for emergency power supply: home, office, camping, as well as boats and yachts.

The genset engine's rubber stabilizers and engine mounts dampen vibrations and minimize noise.

Attention! The power generator has a two-stroke engine - it requires a mixture of 95 gasoline and 2T oil for two-stroke engines in a ratio of 50:1. The device is not designed for continuous 24/7 operation. In case of long operation, the power generator should not be loaded with more than 75% of the nominal power.
