## WI-FI SMART PLUG **ATLO-P1-EWELINK** Wi-Fi, eWeLink

The ATLO-P1-EWELINK Wi-Fi Smart Plug allows to control the devices connected to it using the mobile application. For proper functioning of the device, it is necessary to connect it to the Wi-Fi network with Internet access.

Beyond direct control, the device has the ability to program the on and off schedule and linking to different system events. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).

eWeLink is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth.

**Attention!** Controlling the device and schedule settings is possible if the device has access to the Internet.

|                        |                                                                                                                                                                                                                       |
