

Code: FAZER-777-SUNCO

CIRCUIT TESTER **FAZER-777-SUNCO**

The FAZER-777-SUNCO unipolar electrical tester is intended for performing basic tests of 230V/400V electric installations, car installations and other electric installations. The device can also be used to check the operations of electrical devices. Additionally, the device is equipped with a Live Wire Detector.

AC voltage range:	max. 500 V
DC voltage range:	2.5 V ... 60 V
Wire continuity test:	max. 1 MΩ
Live wire detection:	Detector range : 0.3 ... 50 cm
Operating frequency:	50 Hz
Tip width:	3 mm
Arrowhead length:	30 mm
Operation modes:	• FAZA - Phase and zero detection in AC installations, • CONT - Wire continuity test, • VOLT - Identification of voltage and polarization in DC installations, • DETECTION - Non-contact detection of AC voltage in hidden cables, e.g. in the wall
Main features:	• 4 operating modes: FAZA, CONT, VOLT, DETECTION • Test for the presence of a short circuit, open circuit • Detector sensitivity adjustment, • Beep signal, • LED indication • Battery lifetime : 10 000 single measurements • Compliance with 73/23/EEC, 93/68/EEC, PN-EN 61010-10 standards
Power supply:	3 x Battery LR44 1.5 V (included)
Operation temp:	< 60 °C
Permissible relative humidity:	< 90 %
Weight:	0.038 kg

DATA SHEET

Dimensions:	172 x 23 x 33 mm
Manufacturer / Brand:	Sunco
Guarantee:	2 years
