

Code: MZ1A

PROTECTION MODULE **MZ1A** EWIMAR

The MZ1A module is a device protecting against excessive discharging of the battery. It supports gel or AGM batteries with a rated voltage of 12V.

The module's function consists in disconnecting the battery from the load in case when the danger of the deep battery discharging occurs. The MZ1A module can operate with all alarm control panels not having such protection.

Support:	Batteries 12 V - Sealed lead-acid, AGM
Battery cut-off voltage:	10.3 V
Maximum permissible load:	5 A
Connector dimensions:	4.8 mm
Weight:	0.03 kg
Dimensions:	35 x 26 x 22 mm
Manufacturer / Brand:	EWIMAR
Guarantee:	2 years
