

Code: WH-SFE/PACK-1/17/SLIMVARIO

HANDLE WITH REPLACEABLE BITS **WH-SFE/PACK-1/17/SLIMVARIO** WIHA

|                             |                                                                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Number of replaceable bits: | 14 pcs                                                                                                                                                              |
| Bits sizes:                 | Philips : PH1, PH2 ,<br>Pozidriv : PZ1, PZ2 ,<br>Standard/Slotted : 2.5 mm, 3.0 mm, 4.0 mm, 5.5 mm ,<br>Flat-cross : SL/PZ1, SL/PZ2 ,<br>Torx : T10, T15, T20, T25  |
| Arrowhead length:           | 75 mm                                                                                                                                                               |
| Voltage insulation:         | 1000 V                                                                                                                                                              |
| Main features:              | <ul style="list-style-type: none"> <li>• Insulation made in accordance with VDE</li> <li>• Compliance with IEC 60900 standard</li> <li>• GS quality mark</li> </ul> |
| Weight:                     | 0.323 kg (total)                                                                                                                                                    |
| Manufacturer / Brand:       | WIHA                                                                                                                                                                |
| Guarantee:                  | 2 years                                                                                                                                                             |

#### Handle:

|                |                                                                                                                                                                                                                      |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Main features: | <ul style="list-style-type: none"> <li>• Handle compatible with slimBit system</li> <li>• Insulation made in accordance with VDE</li> <li>• Compliance with IEC 60900 standard</li> <li>• GS quality mark</li> </ul> |
| Dimensions:    | Ø 29 x 160 mm                                                                                                                                                                                                        |

#### Circuit Tester:

|                   |                                                                                                                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| AC voltage range: | 110 V ... 250 V                                                                                                                                                                                           |
| Main features:    | <ul style="list-style-type: none"> <li>• Ergonomically shaped handle protects tendons and joints during operation</li> <li>• Insulation made in accordance with VDE</li> <li>• GS quality mark</li> </ul> |
| Housing:          | Plastic                                                                                                                                                                                                   |

# DATA SHEET

Dimensions:

Ø 18 x 140 mm
