SMART LIGHTING DIMMER **DIW-01** Wi-Fi, 230 V AC ZAMEL

Smart Wi-Fi dimmer DIW-01 allows you to control the brightness of incandescent lighting, halogen lighting and 230V AC dimmable LED lamps. Control is possible using a physical switch, a web browser, an external BleBox µWiFi controller or the wBox mobile application. The device can also operate as a simple switch for lighting without the possibility of adjusting the lighting power.

To work with full functionality, the device requires connection to a home Wi-Fi network. Control is possible via a physical switch, a web browser, or the SUPLA mobile application.

Beyond direct control, the device has the ability to program the on and off schedule and linking to different system events. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).
