Code: MTX-300

WIRELESS SYSTEM CONTROL **MTX-300** SATEL

The MTX-300 controller enables expansion of the alarm systems by adding wireless devices that operate at 433 MHz frequency. The device can work in conjunction with SATEL control panels, including: INTEGRA, INTEGRA Plus, VERSA, VERSA Plus, as well as with MICRA module.
The module can also be used in any third-party alarm system or automation system, e.g. as a radio controller.

Support:	Satel MICRA
Number of supported wireless devices:	• 32 x Remote control, • 16 x Wireless detector, • 4 x Signaling device
Frequency band:	433.05 MHz ... 434.79 MHz
Inputs:	2 programmable inputs to sirens control
Outputs:	8 programmable relay outputs
Main features:	• Autonomous operation or as terminal for the controller • Tamper detection - opening the enclosure • Programming using buttons located on mainboard or by the MTX SOFT application
Power supply:	12 V DC / 70 mA (max)
Operation temp:	- 10 ... 55 °C
Dimensions:	126 x 158 x 32
Weight:	0.21 kg
Manufacturer / Brand:	SATEL
Guarantee:	2 years
